| • UI/UX Design | • Figma | • User Research |
| • Business Process Analysis | • URD & FSD Documentation | • Digital Marketing |
| • Product Design | • Odoo ERP | • Requirements Gathering |
| • User Acceptance Testing (UAT) | • Microsoft Excel | • Agile Methodology |
| • Front-End Development | • SQL | • Design System |

WORK EXPERIENCE

Showroom Automobil — Used Car Sales Consultant

Oct 2022 – Mar 2023

- Successfully sold 3 pre-owned vehicles by identifying customer needs and providing personalized product recommendations.
- Achieved 100% completion of assigned sales processes, from customer consultation to vehicle handover.
- Assisted customers throughout the vehicle purchasing journey, including product demonstrations, test drives, financing coordination, and documentation.
- Generated and followed up on customer leads through walk-in inquiries, referrals, and online marketplace platforms.
- Built strong customer relationships through responsive communication and after-sales support, contributing to customer satisfaction and referrals.

PT Panca Budi — IT Business System Analyst Intern

- Feb 2025 – Sep 2025
- Achieved a 100% completion rate for assigned system development projects, with minimal revisions required during the review and validation process.
- Translated business and user requirements into functional requirements and system workflows, supporting 100% of assigned project documentation needs.
- Completed URD and FSD documentation for assigned internal system projects, ensuring alignment between business requirements and system functionality.
- Collaborated with users and development teams to maintain requirement alignment throughout 100% of assigned project scopes.

- Supported system testing and UAT activities, validating system functionality against defined user requirements before project completion.
- Designed system workflows and UI prototypes using Figma to support requirement visualization and development processes.
- Utilized Figma, Postman, Swagger, GitLab, and Odoo across system analysis, documentation, testing, and development activities.

PT Adi Perkasa Lestari — Front End Designer

Jan 2026 - April 2026

- Designed responsive user interfaces for a custom ERP Sales and Inventory system using Figma.
- Collaborated with business stakeholders and developers to translate functional requirements into intuitive interface designs.
- Developed reusable UI components to ensure design consistency across ERP modules.
- Created wireframes, high-fidelity mockups, and interactive prototypes for web-based ERP features.
- Achieved 100% on-time delivery of assigned UI/UX design deliverables throughout the project.
- Maintained 100% compliance with approved design specifications during the implementation process.
- Improved user workflows by simplifying navigation and data entry across key business processes.

PROJECT & COMPETITION EXPERIENCE

CARBON 7.0 National Competition — Prototype Designer

Universitas Jambi | Sep 2025 - Dec 2025

- Designed a prototype for a heart disease detection system utilizing a machine learning-based approach.
- Developed the user interface and system interaction flow to visualize the disease detection process.
- Translated the proposed machine learning solution into an interactive and user-centered prototype.
- Collaborated with team members to align system functionality, technical concepts, and prototype design.

ORGANIZATIONAL EXPERIENCE

Nawasena Information Systems Study Program Orientation

Event Committee | South Tangerang

Mar 2023 – Jul 2023

- Guided new students in understanding the Information Systems study program, academic environment, and student activities.
- Supported orientation activities to help new students adapt to academic and campus life.
- Collaborated with the event committee to plan and execute orientation activities.

Mentoring UMN 2023

Mentor | South Tangerang

Jul 2023 – Feb 2024

- Mentored new students in understanding UMN's core values, campus culture, and student principles.
- Facilitated mentoring sessions and discussions to support students' adaptation to university life.
- Provided guidance and support throughout the university mentoring program.

FunSport UMN Information Systems

Event Committee | South Tangerang

Apr 2024 – Jul 2024

- Supported the planning and execution of sports activities for Information Systems students.
- Coordinated event activities to ensure sports competitions followed the established schedule.
- Collaborated with committee members to deliver an engaging and well-organized sports event.

EDUCATION

Universitas Multimedia Nusantara (UMN)

Bachelor of Information Systems | 2022 – 2026

South Tangerang, Indonesia

- Relevant Coursework: Business Process Management, Enterprise Resource Planning (ERP), Systems Analysis and Design, UI/UX Design, Database Systems, and Web Development.
- Undergraduate Thesis: ERP Readiness Analysis as a Basis for Designing an Enterprise Resource Planning (ERP) Prototype for Sales and Inventory Modules: A Case Study of PT Adi Perkasa Lestari.
- Certification: Certified International Specialist in Data Modelling (CISDM), PASAS Institute — Apr 2026.

LANGUAGES

- Bahasa Indonesia — Native Proficiency
- English — Professional Working Proficiency
- Japanese — Beginner Proficiency

SKILLS, ACHIEVEMENTS & OTHER EXPERIENCE

- Projects (2022): UMN E-Learning Website UI/UX Redesign
- Projects (2023): Participated in an Artificial Intelligence and Machine Learning research project with a university lecturer, exploring machine learning algorithms, data processing, and model development for research purposes.
- Projects (2025): Collaborated with a university lecturer to develop a custom ERP module using Odoo 19, contributing to business process analysis, system requirements, module design, and functional development for integrated business operations.
